“COVID-19 Misinformation is Everywhere”

Tragically, we have been leading our lives based on lies and misinformation, as it regards the coronavirus pandemic. Millions live in abject fear and America turned into a police state. Medicine is moving through a chaotic and uncertain time. The COVID19 virus is the third world-impacting coronavirus outbreak to strike humans in the past 20 years. The past decade has also seen severe outbreaks of Ebola, Zika, avian influenza, chikungunya, and other threatening viruses. And we are only four decades removed from the emergence of the still raging global HIV/AIDS epidemic that has killed more than 30 million people. Multiple other animal viruses have recently spilled over into humans and caused high mortality, but we survived those without being significantly misled by so-called experts. The CDC admitted they screwed up COVID19 infection counts and intentionally misled the public and have apologized, clarifying that the amount of people truly infected is much lower than what was originally reported. The American Coronavirus Task Force also admitted to fudging the National COVID19 death count when Dr. Birx said the deaths are people who died “with” COVID19 not “from” COVID19, thus making the real death count much lower than what is currently being reported. Dr. Anthony Fauci initially admitted masks won’t help against the virus and mask manufacturers are now including warnings that their products do not deter COVID19. Fauci flip-flopped and now says he wears the mask “to serve as a role model.” And he finally came around to saying that continuing to close the country could cause irreparable damage. DUH! The CDC backtracked their initial claim that led governors to shut down their states and clarified that COVID19 does not spread easily on surfaces. Yet, we continue to spray and hose down everything in sight with disinfectants. Governor of New York Andrew Cuomo confirmed a recent health study showing that 70% of new infections actually originate at home, thus making stay at home orders one of the most dangerous mandates currently in place. President Trump stopped funding the WHO permanently until they can prove they are no longer corruptly influenced by communist China after they lied to our country about human to human transmission of COVID19 in January. Based on half-truths and distortions, we have added over nearly 6 trillion to national debt and have laid-off or furloughed over 50 million workers. Lies and fabrications has brought America to her financial knees in a few short tragic months.

In the America that I love, we must stop living in fear. Rely on good old common sense but still try to find any reliable scientific truths and act accordingly. The CDC just confirmed a .2% death-rate for COVID-19. Please stay safe and healthy.
